Dear sir/madam,

RE:APPLICATION FOR A SCHOLARSHIP TO STUDY ELECTRICAL ENGINEERING IN EGYPT

Reference is made to the above captioned matter. I hereby apply to study Electrical engineering in Egypt as seen from the media.

I am a 21-year-old Zambian single man. I completed my secondary school education in 2019 at Petauke Boarding Secondary School and I obtained a school certificate. Given a chance to study in Egypt, I believe I can do well as evidenced by my results. This will help in my personal development and indeed the development of this nation as it will increase the number of engineers in our country. Attached to this letter are my supporting documents.

Your consideration to this letter will be highly appreciated.

Yours faithfully,

Name
